

src/common/inc/Hasher.h

```
graph TD; A[src/common/inc/Hasher.h] --> B[murmur3.h]; A --> C[sys/types.h];
```

The diagram illustrates a header file dependency. At the top, a gray box contains the text 'src/common/inc/Hasher.h'. Two blue arrows originate from the bottom of this box and point downwards to two separate white boxes. The left box contains 'murmur3.h' and the right box contains 'sys/types.h'. This represents the Hasher.h header file including the murmur3.h and sys/types.h header files.

murmur3.h

sys/types.h
